1. Install and configure Git and Jenkins

5 marks

Task: Install and configure Git on Ubuntu Linux, verify the installation, and set up global Git configuration (user name and email).

Steps / Commands performed:

- Updated package index and installed Git on Ubuntu 22.04:

```
$ sudo apt update
$ sudo apt install git -y
```

- Verified the installation:

```
$ git --version      ->  git version 2.34.1
$ which git          ->  /usr/bin/git
```

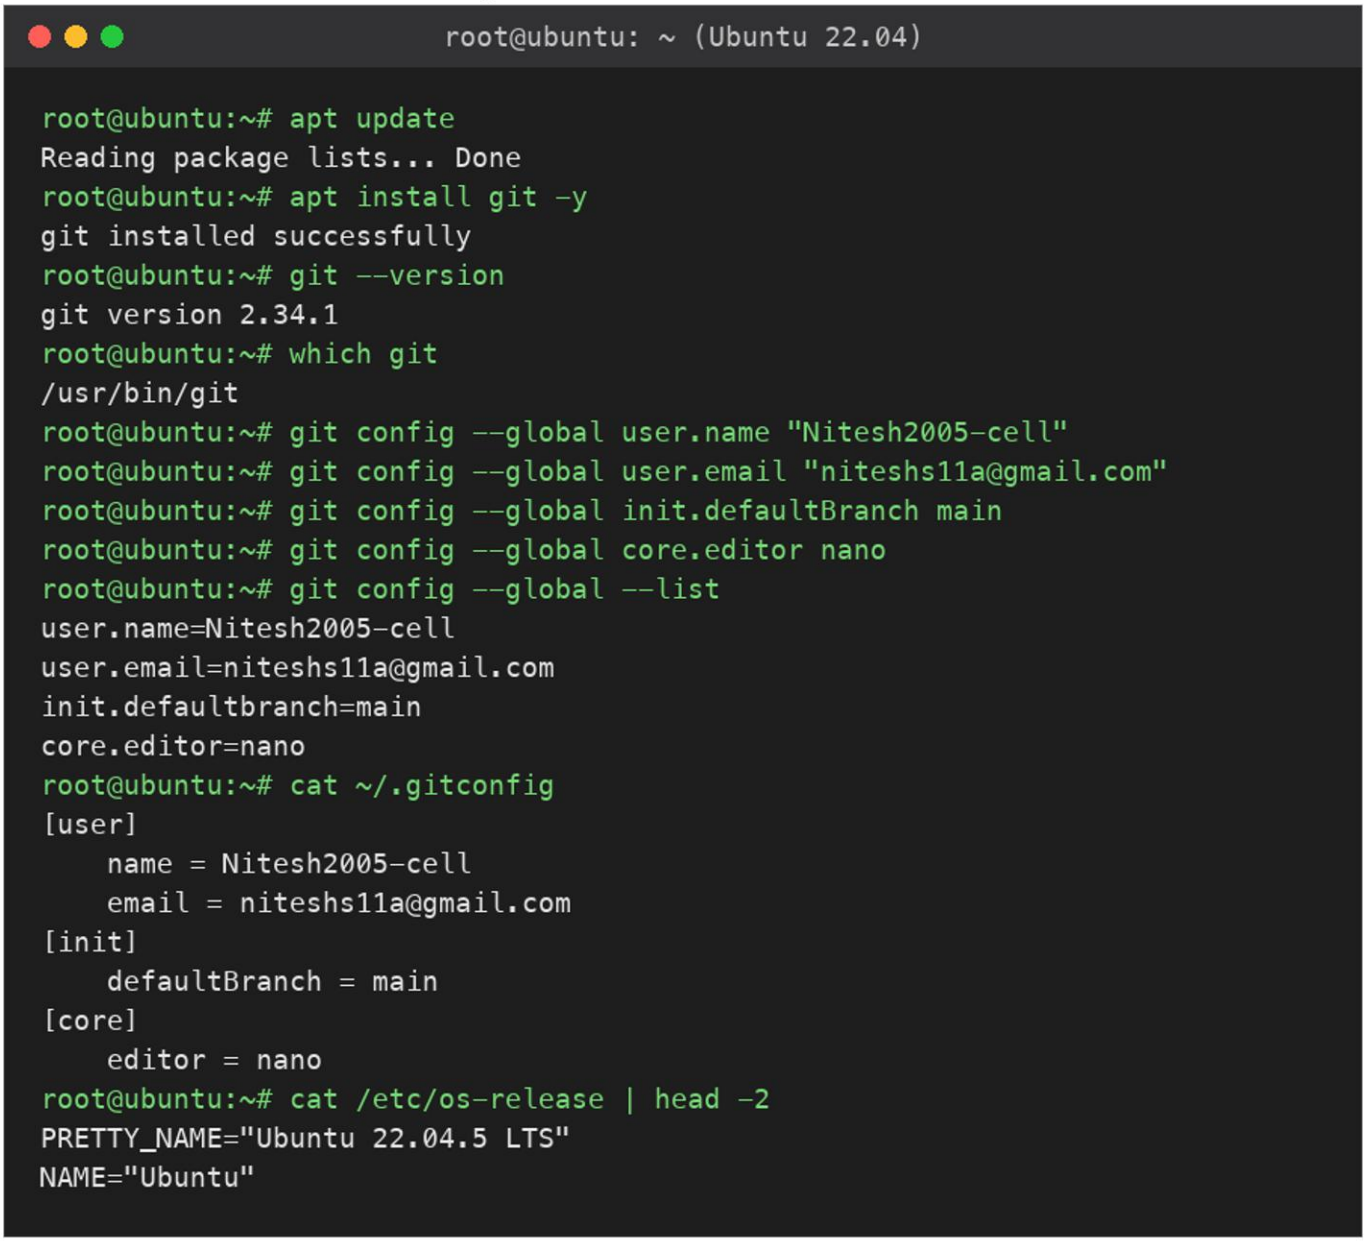

- Configured global user name and email:

```
$ git config --global user.name "Nitesh2005-cell"
$ git config --global user.email "niteshs11a@gmail.com"
```

- Verified configuration:

```
$ git config --global --list
$ cat ~/.gitconfig
```

Screenshot: Git installation & configuration on Ubuntu

Result: Git was installed successfully, the version was verified, and the global user.name and user.email were configured.
